Re: Use of cell phones on airlines

I am writing to support to keeping the ban on cell phones on airlines!

It is enough being annoyed by conversations by cell phone users in restaurants, in line at stores, and most everywhere we are in public.

I am not against cell phones. I use one frequently, but never in public.

I can't imagine relaxing on vacation on an airline and having to listen to some yahoo(s) yakking away behind, beside, or in front of us.

Again, please maintain the ban on use of cell phones on aircraft in the air!!!

Thank you,

Chuck and Billie Shinn
